

Website design for artists (INTRO)

#6 Show & Tell

mikevontiesenhausen.com

Chosen by: Meaghan

Some cool stuff

- Uses Galleria jQuery plugin for backgrounds
- Layers elements over background using fixed positioning
- Uses CSS transforms to rotate icon that hides menu

ollymoss.com

Chosen by: Mike

CAUTION!

- This site uses frames, which in general are a bad idea
- This site could easily be done without frames

Frames are bad mmmkay?

- Hard to link to specific page
- Hard to bookmark pages
- Hard to print pages
- Not search engine friendly
- Frames are obsolete in HTML5

dustincurtis.com

Chosen by: Dan

Cool stuff

- Uses a separate CSS file for each article
- Nice use of webfonts and CSS3
- Nice use of absolute positioning for layouts

lostworldsfairs.com

Chosen by: Dan

Nice!

- Webfont and CSS3 showcase
- Nice use of layering and positioning of elements
